

Mansi Modi

San Francisco, CA · Mobile: (408) 917-8064 · mansimodi90@gmail.com · LinkedIn: [linkedin.com/in/mansimodi](https://www.linkedin.com/in/mansimodi)

Data Scientist with 8+ years of experience turning messy data into meaningful decisions. I have done everything from A/B tests and KPI dashboards to product strategies that saved \$2M. I like working close to the product side, translating customer behavior into strategy and getting product, engineering, and ops teams talking to each other. Since leaving AT&T, I have shipped AI-powered apps on my own and gone through formal PM training.

Technical Knowledge

Data & Analytics: SQL, Python, R, Snowflake, Databricks, Hive, Vertica

Experimentation & Statistics: Hypothesis testing, A/B testing, metric design, causal inference, regression analysis, time series analysis, machine learning techniques, clustering, natural language processing

AI Tools: Claude Cowork, Lovable, Google AI Studio, Zapier, n8n, HeyGen, Suno AI, Vercel

BI & Visualization: Power BI, Tableau

Independent Projects and Professional Development

March 2026 - Present

- Built [CoFoundry](#), a searchable directory for 97 peer submitted projects, solving a real problem for Future World Alliance participants who had no way to browse each other's projects. Used Claude, Vercel and n8n to transform Teams chat history into a structured database of projects so that builders can easily find collaborators.
- Certification: Product Management for AI & Data Science - Udemy (365 Careers, Danielle Thé).
- Certification: AI Launchpad Course 1 & 2 - Future World Alliance. Training in effective, responsible AI tool use; built several prototype applications applying course learnings.

Professional Experience

AT&T, San Francisco

Sep 2017 - Dec 2025

Lead Data Scientist, Customer Advocacy and Service, Mobility

Aug 2024 - Dec 2025

- Applied AI tools to analyze 100k+ customer chat and call transcripts per week, translating insights into decisions that improved resolve rate 10%, cut handle time 15%, and reduced call shed 6%.
- Identified the root cause of misrouted insurance calls and defined and drove the fix end-to-end from diagnosis to shipped solution saving AT&T \$2M annually.
- Led requirements gathering and rollout of 10+ Power BI dashboards, aligning 5+ stakeholder teams on shared KPI definitions and increasing dashboard adoption 75%.
- Selected as 1 of 30 participants company wide for a 6-month leadership development program, expanding cross-functional scope and ownership.

Sr. Data Analyst, Strategy and Enablement, Mobility

Dec 2021 - Jul 2024

- Owned requirements and roadmap prioritization for a chronic-calls rerouting trial; ran bi-weekly readouts with 30+ stakeholders and incorporated participant feedback, delivering a routing strategy that improved resolve rate 6%.
- Presented weekly customer and product performance insights to AVPs, directors, and vendors, translating data into strategic recommendations that accelerated go/no-go decisions and cross-functional alignment.
- Delivered 50+ reports using Snowflake, Python, and Power BI to monitor customer resolve rate across products.

Data Scientist I-II, Data Governance, Chief Data Office

Sep 2017 - Dec 2021

- Improved revenue forecasting accuracy 75% across weekly, monthly, and quarterly metrics company-wide using Prophet-based time series models.
- Scoped and shipped a KPI monitoring pipeline, improving anomaly root-cause visibility company-wide.
- Reduced false data anomalies 30% through time series modeling, cutting manual resolution work 20% and saving \$0.5M annually. Initiated a proof-of-concept that moved into production and is now used by 25+ users across teams.

Awards

AT&T Connection Award: Recognized for taking leadership in data analysis for AT&T chat product, optimizing overall analytics process and mentoring fellow teammates.

AT&T We Care Award: Recognized for driving innovation in digital channel (chat) analytics, challenging conventional approaches, and mentoring teammates to enhance data insights and professional growth.

Education

Masters of Science, Statistics, San Jose State University, San Jose, California

Jan 2015 - May 2017

Masters of Science, Statistics, Gujarat University, Ahmedabad, India

Jun 2011 - Dec 2013

Bachelors of Science, Statistics, St. Xavier's College, Ahmedabad, India

Jun 2008 - Apr 2011
